itol on next Monday.

Big Thing .- To be Mayor or a member of the Board of Aldermen of Bolivar is a big thing-on ice! In fact, such a position is hard to beat ! and much harder to secure unless 'you can " vote der loyal dickets" and have a property qualification. As there are not many in this community who can "tote fair," as regards the first question moire grande, but few persons visited the polls on last Sisterday, and Sheriff McCarley had am. ple opportunity to take a comfortable nap during the time that elapsed from the polling of one vote to another. At the present writing we are unable to state who is and who is not Mayor, but presume that some one will accept of the office-throw a brick into the town pond-or put one in his hat-split a plank, toss a shovel full of dirt into one of the many nameless chasms that yawn at every crossing, retire to his quiet home and tell of the hardships one must undergo while wearing the soiled robes of "His Honor." A friend has just informed us that Calcb Howser refuses to put on the robes of office -and that swhere the big thing comes in!

BOLAVAR FRNALE ACADEMY. - We are pleased to state to the public that ample arrangements have been made for the approaching of February. Spring session of this favorite school, and that the trustees have secured the services of the following competent and trustworthy teachers : Miss Mary A. Galloway, princi pal; Mrs. Ann Fentress, primary department; Mrs. Dr. J. W. Nelson, teacher of SHOP at Carruth's old stand, Somerville Road, just wast music, drawing, painting and embroidery. Parties who live at a distance, and who desire to patronize the Bolivar Female Acade my can secure good homes for their daughters or wards in highly respectable families on reasonable terms. As will be seen from a card in another column, no boys will be admitted to the school this session.

Pictures .- "Secure the shadow ere the substance fades"-and now is the time "to do it, as Mr. W. T. Brooks, our home artist, intends to be absent from Bolivar on business during the month of Febuary, and probably longer. Tomy McCarley, however, being an expert in the Ambretype process, will cary on that peculiar branch of business | south 130 poles to a stake on the north bounduring Mr. Brooks' absence. - We have seen many beautiful specimens of Mr. Brooks' production and assure the public that he is field, a northwest corner of entry No. 1379 competent and fully prepared to furnish any for 640 acres, thence east I pole to a stake, and all kinds of pictures. His charges are low and uniform,

It will also be seen that tronage of the school justifies it. It is eviattendance at the academy is not sufficient to employ two good teachers. It is true that Mr. Hubbard has been teaching a large number of boys for the past year, (upon an average about thirty-four,) but it must be gratifying to the patrons of the school that during a scholastic year, about two hundred and fifty hours more are spent in teaching than in any other school of the same grade. The to W. W. Thos. Ruffin,.....l vote. District 15 being one of the largest in the a field, a corner of the same on the west county, it can be readily seen how the fran-

chies law operates. Sclah!
